## **All business with Russia and Belarus is stopped.**

Due to Russia's invasion of Ukraine, Suzuki Garphyttan will not do any business or trade with Russia and Belarus. All business is stopped. The current situation in the Ukraine is a sad moment for our modern world and it will influence all of us. We cannot accept the current aggression from Russia against Ukraine and for this reason Suzuki Garphyttan have decided to stop all further business with Russia and Belarus.

- To attack a free democratic country, like Russia does, is of course unacceptable and needs a strong reaction from the rest of the world, CEO Ad Raatgeep explains. This is a natural action for us at Suzuki Garphyttan as we need to take our responsibility and stand up for human rights.
