

Date: 2021-12-06

Suzuki Garphyttan group is certified according to IATF 16949:2016. This Automotive Quality Management System Standard, herein referred to as 'Automotive QMS Standard' or "IATF 16949." along with applicable automotive customer-specific requirements, ISO 9001:2015 requirements, and ISO 9000:2015 defines the fundamental quality management system requirements for automotive production and relevant service parts organizations." (ref. IATF 16949:2016, section Foreword – Automotive QMS Standard)

This means that in order to achieve certification towards IATF 16949:2016 the scope of the audit includes all ISO9001:2015 requirements and the automotive IATF 16949:2016 requirements. This is also stated in the IATF standard for clarification: This Automotive Quality Management System Standard, herein referred to as 'Automotive QMS Standard' or "IATF 16949." along with applicable automotive customer-specific requirements, ISO 9001:2015 requirements, and ISO 9000:2015 defines the fundamental quality management system requirements for automotive production and relevant service parts organizations." (ref. IATF 16949:2016, section Foreword – Automotive QMS Standard).

With this taken into consideration the necessity of an ISO9001:2015 certificate is found to be redundant and not necessary, as IATF certification requires and includes fulfillment of all the ISO9001:2015 requirements, and consequently the ISO9001:2015 requirements are included and audited in all IATF audits.

CQO/Chief Quality Officer Suzuki Garphyttan group

A handwritten signature in black ink, appearing to read 'Malin Hallberg', written in a cursive style.
